AND MARYVILLE TRIBUNE

VOLUME 16 | EIGHT PAGES | MARYVILLE, MISSOURI, TUESDAY, JUNE 30, 1925 | EIGHT PAGES | NO. 23

ELLISON ON COMMITTEE

MEMBER STATE EXECUTIVE COMMITTEE DEMOCRATIC PARTY

REED ON COOLIDGE

Says President As Seen By People Is Product of Advertising—No Desire To Be Harsh.

George Robb Ellison of Maryville was elected as one of the members of the executive committee of the Democratic State Committee at a meeting held in St. Louis yesterday. This committee will supervise party affairs until after the primary next August. Other members of the committee are Stephen B. Hunter, Cape Girardeau; M. D. Campbell, Kirksville; former Judge Fred L. Williams, St. Louis; and Mrs. O. F. Risser, Springfield.

St. Louis, June 30.—Senator James A. Reed of Missouri, Democrat, late yesterday attacked President Coolidge.

"I desire to say nothing harsh of Mr. Coolidge," said Senator Reed. "He is in truth an amiable individual and as he sees the light, entirely honest and patriotic. But there is as great a difference between the Coolidge of fact and the Coolidge of fiction as there is between an oil field prospectus displaying a gusher and the barren hole in the ground, which, in fact, exists."

"Result of Advertising"

The public seldom knows its officials, Reed said, because it sees a picture painted by the pens of ready writers who constitute the advertising agency of a political party.

Describing the president as an intellectual and moral Hercules, produced by advertising agencies and billboard artists of the Republican party, Senator Reed continued:

"He became president by an accident of God. Harding's recent death had awakened a wave of sympathy and Coolidge, the politician, noted the fact. Accordingly, he announced he would keep all of Harding's advisers and carry out all of Harding's policies. It was hardly the act of a strong man."

Senator Reed charged that "The pretense that any large sums of money have been saved by reason of any policy of Mr. Coolidge, is absolutely false pretense."

To Close War Business.

"The business of the war had to be closed up," Senator Reed stated. "Thousands of civilians had to be retained in the employ of the government until this was concluded. One after another these problems have been solved, as witness the closing of one department and then another, until now, eight years after the war, this multitude has been reduced to a moderate working force.

"To compare, therefore, the appropriations of 1917 with those for 1925 is the limit of absurdity, and to compare any of the intermediate annual appropriations is proportionately absurd."

Dr. A. W. Nelson, defeated Democratic nominee for governor, preceded Senator Reed.

Minnie Auffert Files Divorce Proceedings

Alleging indignities and abandonment Mrs. Minnie Auffert filed divorce proceedings in the circuit court this morning for the October term of court against J. H. Auffert, who is now in Illinois. Mrs. Auffert also asks that her maiden name of Minnie McCormick be restored.

They were married December 8, 1923 in Andrew County. The plaintiff now claims that the defendant fraudulantly procured a marriage license in Illinois in April and married to another woman and is now confined in jail serving sentence. A child, William Preston, age six months, was born to them.

Kinnaird Will Build Home on Grand Ave.

Buys Tract of Ground from N. Sisson —Just South of Senator Ford's Home.

R. A. Kinnaird of the State Teachers College has purchased a tract of ground from N. Sisson on Grand Avenue, just south of Senator and Mrs. M. E. Ford. Mr. Kinnaird intends to build a home on this site.

Mrs. Granville Gray Dies This Morning

Funeral Services Will Be Held At 2 o'Clock Thursday—Was 60 Years Old.

Mrs. Granville Gray died at 9 o'clock this morning at her home, five miles south of Maryville, following a several years' illness of heart disease and complications. Mrs. Gray's condition had been critical for the last two months.

Funeral services will be held at 2 o'clock Thursday afternoon at the home and burial will be in Miriam cemetery.

Mrs. Gray would have been 60 years old on July 5. She was born in the Burr Oak community near Skidmore and had lived in Nodaway County most of her life. Her marriage to Mr. Gray took place forty-two years ago. The farm where she died had been her home for the last twenty-five years.

Surviving Mrs. Gray are her husband and the following children, Frank and Harry Gray and Mrs. C. H. Espey, all of Maryville; W. L. Gray, Marshfield, Wis., and Fred Gray, Kansas City. Her mother, Mrs. Mary Haynes of Skidmore, 88 years old, and these brothers and sisters survive: Elbert and Thomas Haynes, Washington; F. M. Haynes, Clarks, Neb.; F. L. and W. E. Haynes and Mrs. G. H. Allen of Skidmore; and Mrs. John Bowland, Barnard. The children living at a distance are all here.

PAVING NOW DEAD ISSUE

REMONSTRATORS ON WALNUT ARE IN MAJORITY.

BIG PROJECT KILLED

Council Takes This Opinion Last Night But Tables Matter Until Meeting Tomorrow.

Although no action was taken by the city council last night it is the opinion of the city commissioners that more than enough resident property owners signed a remonstrance against paving Walnut street from Lincoln street to Ninth street to kill the proposition.

As the city attorney was out of the city last night the council did not pass an ordinance declaring it could go no further with the matter of paving seventeen blocks on Walnut, but tabled it until tomorrow night when the commissioners will be in regular session and an ordinance can be drawn up by the city attorney.

It was found by a close check of the names on the remonstrance with an abstract of resident property owners on Walnut street from Lincoln street to Ninth street that more than a majority of bona fide property owners protested the proposed paving and own more than a majority of front footing abutting this street.

"How to Choose Your Life Work" at Y. Meet

The first number on the program of the Young Women's Christian Association of the College this morning was a song, "Onward Christian Soldiers." This was followed by the devotional led by Dorothy England who read Matthew 6:19-34. A solo, "The Bird With a Broken Pinion," was sung by Irene Lowry.

The topic for discussion was "How to Choose Your Life Work," upon which talks were made by Rebecca Briggs and Ruth Cline. Following this, Charles R. Gardner of the College faculty gave an appreciation talk on Earnest Davis, a tenor singer who is to appear at the College on July 9. As the Y. W. girls are sponsoring this concert, arrangements were made for selling the tickets. Miss Essie Ward was appointed chairman of the ticket sales, and Miss De Luce gave "pep" talks urging the cooperation of the members in making the entertainment a success.

Schriebe Returned to St. Joseph Today

A deputy sheriff from Buchanan County came up from St. Joseph last night and took Sam Schriebe back with him this morning, Schriebe being wanted there for jumping bond. He has been confined in the St. Francis hospital suffering with a broken leg.

Mr. and Mrs. C. C. Miller of St. Joseph are visiting Dr. and Mrs. Crowson of Parnell.

TO LET PAVING ON JULY 25TH

FOUR AND HALF BLOCKS OF CITY WORK THEN.

18 1-2 BLOCKS TO DATE

Work For Portions Walnut, Fillmore and Lincoln Streets, Includes Concrete and Brick.

Contracts for four and a half blocks of paving will be let by the city council at 2 o'clock the afternoon of July 25 at the city hall.

The council will receive sealed bids up until this time for paving two blocks on Fillmore street from north line of Second street to Fourth street. The specifications as accepted by the city council call for seven inch re-inforced concrete, for a roadway twenty-three feet eleven inches in width on this portion of Fillmore street. Also at this time the council will receive bids and let contract for paving of Walnut street from the south line of the Wabash right-of-way to Twelfth street, about two full blocks.

The specifications as adopted by the council for paving this portion of Walnut street are a two and a half inch vertical fiber brick on a four inch concrete base, the street to be twenty feet from curb to curb. Plans and specifications may be found at the city hall for these two streets for which contracts will be let July 20. Final adoption of two ordinances was made by the city council in special session last night for these two paving projects.

Also at this time the contract for paving a portion of Lincoln street from Buchanan street to South Main street will be let, this being a connecting link between the two paved streets.

With the letting of the contracts for two blocks on Fillmore, two blocks on Walnut and the small strip on Lincoln streets, all the proposed paving that is now before the city council will be disposed of as the improvement of the rest of Walnut street has been killed.

Up to the present time this year eighteen and a half blocks of new pavement has been assured, which includes approximately six blocks on South Main, one-half block on Lincoln, one block on Market, two blocks on Dunn, seven blocks on Fillmore and two blocks on Walnut, all of which is to be seven inch reinforced concrete except the two blocks on Walnut, which will be 2½ inch brick on a four inch concrete base.

The council passed an ordinance last night accepting the contract of the Cook & O'Brien Construction Co., for 3,610 square yards of seven inch concrete on Fillmore street between Fourth and Eighth streets.

A license was issued to John L. Cole by the council to operate four pool tables at 113 East Fourth street for a period of six months.

13 Children Undergo Operation at Clinic

Thirteen children from various sections of Nodaway County underwent tonsil and adenoid operations at the free clinic held at St. Francis Hospital this morning under the auspices of the Nodaway County Health Department. Drs. H. S. Dowell and R. C. Person performed the operations.

Funeral for Orrsburg Infant Held Today

John Henry, Age 3 Weeks, Son of Mr. and Mrs. Paul Smith, Dies At 9:15 O'Clock Last Night.

John Henry, three-weeks-old son of Mr. and Mrs. Paul Smith of Orrsburg, died about 9:15 o'clock last night. The baby had never been strong. The funeral services was held at 2:30 o'clock this afternoon at the Smith home conducted by the Rev. L. F. Focht of Parnell, and burial was in the Orrsburg cemetery. The baby's mother was Miss Fay Sparks of Orrsburg.

Pike County Bank Closes Doors Today

Jefferson City, June 30.—The twenty-seventh bank failure in the state this year was recorded today with the closing of the Farmers Bank of Annada in Pike County.

The bank had resources of $65,000, capital of $20,000, loans, $32,000, and deposits, $35,000.

Christmas Cheer Will Be Feature at Church Program

A Christmas program will be given by the members of the Women's Foreign Missionary Society of the M. E. Church at Pickering on July 9. It was previously announced for July 2.

The program will be held at the church, which will be appropriately decorated. There will also be a Christmas tree, and the members and friends of the society desiring to contribute gifts for the box to be sent to China are requested to have them at the church by that time.

The Christmas program is being given at this time in order to provide "color" for the solicitation of gifts for the Chinese boys and girls.

SCOPES TRIAL FOR PUBLICITY

EVOLUTION SEEMS TO BE MERE SIDE ISSUE.

EDUCATORS AID PLAN

Defense Is Backed by American Civil Liberties Union of New York, According to Instigator.

Dayton, Tenn., June 30.—Reports that the Scopes case originated in a drug store argument were disapproved today by George W. Rapplyea who initiated the suit against J. T. Scopes to test Tennessee's anti-evolution law.

Repplyes frankly admitted that he conceived the test as a publicity stunt for Dayton.

In describing the inside story of the suit, he said he was aided by F. E. Robinson, chairman of the Rhea County board of education, and Walter White, the local superintendent of schools.

Scopes did not know of the plan, he added, until they asked him to become a "voluntary" defendant. The Scopes defense, Rapplyes added, is being financed by the American Civil Liberties Union of New York and that the test case was held up until the union agreed to foot the bills.

Another Victim of Blast Is Discovered

Body So Badly Burned That Identity And Sex Cannot Be Ascertained Mayor Orders Search.

Kansas City, June 30.—Another body, so badly burned that identity and sex could not be discovered was taken from the ruins of the Gillis Theater shortly before 1 o'clock this afternoon. This brings the known dead in Thursday night's disaster to five.

Kansas City, June 30.—After two days virtual cessation of digging for bodies under the ruins of the Gillis Theater, Mayor Beach today ordered a force of fifteen men to resume work. Persistent reports that bodies would be found over the entrance to Sanderson's cafe and the fact that no trace has been found of James Bonner, 45, reported missing by his roommate, caused the mayor to order the resumption of the work.

Many Baptists to Go to Rock Port Meeting

Miss Reitha Hight of Kansas City to Be Principal Speaker at Thursday Session—Former Missionary.

Miss Reitha Hight of Kansas City, state young people's worker for the W. M. U., will be the principal speaker at the meeting of the Northwest Missouri Baptist Woman's Missionary Union at Rock Port Thursday. Miss Hight is a former missionary to Cuba and only recently took up her present work. The all-day meeting will be held at the Rock Port Baptist Church with a basket dinner at noon. Mrs. J. A. Speirs of Maryville is district president and Miss Eva Davis, district organizer, and both will attend Thursday's meeting. If the weather permits several cars of local Baptists will go to Rock Port for the convention.

Ira Cline Is Made Defendant in Suit

A suit to collect commission on a contract was filed in circuit court this afternoon by W. W. Scott and Arthur C. Scott against Ira Cline, of near Sheridan. The plaintiffs are suing for $500, interest at 6 per cent and costs.

You may make a success of your life work and still be a failure.

EVOLUTION IS A HYPOTHESIS

REGARDED AS SUCH BY REV. FATHER NIEMANN.

TALKS TO NEWMAN CLUB

Subject Of His Address Is "Science And Religion"—No Proof Ever Has Been Given.

"There can be no conflict between the natural and the supernatural because they are the revelation of the same God, therefore, any truth ascertained by scientific investigation can never contradict the truth of a Divine revelation," the Rev. Father Henry F. Niemann, pastor of the St. Patrick's Church, told the members of the College Newman Club this morning in his address, "Science and Religion."

Father Niemann told of the differences between the natural and supernatural and also talked of the revelation that God makes in Nature. "The Bible as supernatural revelation is intended to teach religion and not science," he said.

According to Father Niemann "the Bible use the language of the people," as he pointed out the Biblical expression of the "sun rising in the east and setting in the west" as it appears to us but really does not.

He went on to say:

"It uses the same expression that we use today. It does not teach whether the sun or the earth is the center of the solar system.

"Catholic scientists are not hampered by religion in their scientific investigations. They are conscious of the fact that no result of scientific investigation can contradict religion as revealed in the scriptures.

"The Cant-LaPlace theory of the universe is that the universe was first a nebular mass and that the planets developed from this. But the Bible says nothing about the creation except that God created the heavens. How he did it or in what condition they first were it is not stated. Any man is perfectly free to accept that theory, for it is only a theory, a hypothesis and nothing more. Regarding the earth, the Bible tells us that it was not in the condition it was today that 'It was void and empty and the spirit of God brooded over the waters.' By these words we see that the development of the earth into its present form was due to the force and power that God put into it.

"The Catholic Church has never defined anything concerning the six days of creation whether they were of twenty-four hours or a longer period.

"Many Catholic scholars look upon this first chapter of Genesis as a revelation to Adam which purpose was to impress upon him the solemn and great truth that God is the maker of all things which is the truth and foundation of all religion."

The speaker regarded evolution much as the Cant-LaPlace theory, that it is merely a theory, a hypothesis. He said that Catholic scientists and many others object to evolution not as a contradiction to the Bible but because no decisive proof of evolution has ever been given. There are Catholic Scientists who maintain t hat evolution is a probability as far as the vegetable and animal world are concerned but all acknowledge that so far it is only a theory, but if it were scientifically established we could see no contradiction in it. As far as man is concerned an evolution of the spiritual side of man, the soul, is a logical impossibility for the spiritual soul can not develop from a material substance. As to the human body, no satisfactory evidence of evolution has been forthcoming, he said.

The meeting of the club was opened by a prayer by the president, Miss Esther Busby, which was followed by the singing of the club song, "Lead Kindly Light." The meeting was then turned over to the program committee and Father Niemann was introduced.

Trenton Lawyer to Tell of M. F. A. Plan

George Hubbell, a Trenton attorney, will explain the legal phases of the Missouri Farmers Association program at a meeting to be held in the Circuit Court room here at 8 o'clock tonight. A. G. Knight, who was scheduled to speak tonight, will be unable to attend.

Dr. H. E. Moss, coroner of Jackson County, visited in Maryville today.

NEW SANTA BARBARA TO BE BUILT UPON RUINS OF OLD

REVOLVING-FUND PLAN INAUGURATED BY CLEARING HOUSE

ELEVEN BODIES FOUND

Others May Be Located In Wreckage of Famous California City—Other Shocks Are Not Damaging.

Santa Barbara, Calif., June 30.—A call was sent out by the clearing house association late this afternoon for a twenty-million-dollar revolving fund to be used in the reconstruction of the city.

A. H. Cooley, fire chief, said the damage could not be accurately estimated at this time.

Two members of the Pacific Coast board of underwriters inspected the ruins and refused to make a statement declaring weeks would be required to estimate the losses. San Francisco and Los Angeles were requested to send structural engineers here to act in an advisory capacity to the city government in an immediate survey for reconstruction.

Santa Barbara, Calif., June 30—Old mission Santa Barbara, one of the most picturesque of California's missions and mecca for hundreds of globe-trotters and sight-seers, will be restored to its former glory at once, although suffering severe damage from the quake which rocked this city early yesterday.

Torn parts of the old structure will be rebuilt by the same order of Franciscan Uadres who toiled in erecting it 139 years ago.

Such a statement was issued here today by Padre Augustan Halbrecht, superior of the mission.

Reno, Nev., June 30.—The earth tremors which extended from Montana to California opened up large crevices at Steamboat Springs and Hotwater Springs near here and today the water flow was doubled, steam shooting from the widened fissures.

Three shocks of slight intensity were felt at Steamboat Springs yesterday while a greater one was felt at an early hour today.

Santa Barbara, Calif., June 30.—Three minor fires threw new terror into this ravished city today. The flames, however, were quickly controlled and no damage done, nor was the city seriously threatened by fire.

One of the fires was the burning of a building in the damaged business section, and the other a rubbish fire temporarily out of control in the historic Patio de la Guerra.

Plans were made at a mass meeting of welfare workers and officials to care for the needy and hungry, Los Angeles, Ventura, and many nearby cities dispatched truck load after truck load of supplies of food. The shipments were piled high on the plaza.

Not Under Martial Law.

Santa Barbara is not, strictly speaking, under martial law, Col. Wm. H. Fairbanks explained. No official proclamation ordering martial law has been issued. The military, however, is in charge of policing, and is the high authority in matters of movement through the streets, clearing of debris and sanitation.

Mayor Andera said the assistance of the naval reserve militia and men from the war craft in the harbor was essential but he did not think actual martial law was needed.

Santa Barbara, Calif., June 30.—The U. S. S. Arkansas, Capt. Frank Lyon commanding, carrying a detail of Indianapolis midshipmen on their annual cruise, landed a detail of twenty-five bluejackets here today. The men are to aid in policing the city.

Santa Barbara, Calif., June 30.—A Mexican woman, Maconia Villamox, was taken alive from the mountains of debris that was the San Marcos office building, twenty hours after the earthquake, that wrecked the structure, medical officials said this morning.

The woman was scrubbing floors in the building when it collapsed. She is expected to live.

Santa Barbara, Calif., June 30.—Quake-striken Santa Barbara's death toll remained at eleven today.

Reports that another body had been found in the Arlington debris were denied by police.

Workers turned their attention to the San Marcos building in an effort to uncover the body of Chappo Mastero, chief engineer of the building. He was reported buried under more than one hundred tons of rock and mortar in the basement of the collapsed structure.

More Tremors Today.

Three shocks which rocked the city this morning did no damage of consequence. The first shock at 1:22 a. m., was the most severe of the three and shook the wrecked buildings and tottering walls violently.

Residents appeared to have become callous to danger and guards were forced to use bayonets to keep crowds from passing beneath buildings with bulging sides. Many buildings are constantly dropping bricks and bits of plastering.

Thousands of curious motorists were turned back at various points near here today.

A detail of 185 policemen of Los Angeles arrived shortly before midnight, and an hour later fire trucks with their crews sped into Santa Barbara to augment the local fire-fighting forces.

The fire apparatus was driven from Los Angeles to Santa Barbara in the record-breaking time of five hours. Seven thousand gallons of gasoline and 35,000 gallons of distillate have formed a great pool in the lumber yards. A spark would start a conflagration which might destroy an already crippled city.

Business Is Suspended.

Twenty-four hours after the first shock shook the city, Santa Barbara presented a spectacle. Beds were everywhere. New houses were occupied and a number of families were living in yards. Coffee was made over bonfires at a central point and distributed.

Business was suspended, merchants not even being allowed to inspect their stores and offices.

There is no famine and will be none, city officials said. Plenty of food is available for all, it is said.

Santa Barbara, Calif., June 30.—The Guadlupe Church, principal place of worship for Mexican residents in Santa Barbara, was looted early today of its valuable contents. Gold and silver images, altar cloths, and tall gold candle sticks, used in celebrating high mass, were removed from their places before the altar. The value of the stolen goods was placed at several thousand dollars by police today.

Santa Barbara, Cal., June 30.—Twelve lives were lost in the earthquake that rocked Santa Barbara yesterday, it was indicated last night.

The figures, however, depend upon the recovery of several bodies asserted to be in the ruins.

Last night the principal structures of this channel city were a mass of debris and ruins. The city manager made a conservative estimate of 3 million dollars as the damage. The city engineer believed the property loss would run as high as 30 million dollars.

The time of the first tremor, 6:44 o'clock, is believed to explain the low death toll, for at that hour State street, the principal thoroughfare, was not crowded.

Santa Barbara, Cal., June 30—Santa Barbara, proud channel city of Pacific Coast, whose outlying districts are dotted with the ornate country mansions of many millionaires, presents a scene of havoc and destruction, its downtown business section being a mass of ruins by earthquake.

State street, the main thoroughfare, is cluttered with granite, marble, cement and brick debris, while along the sides ghastly torn remnants of buildings are in ruins.

The populace of thirty-one thousand was terror stricken when the earth tremors, starting at 6:44 o'clock yesterday morning, began twisting the main business buildings into debris, moving residences and hurling into the streets into all sections of the city the cornices and brick fronts.

Early Hour Fortunate.

The early morning hour of the dis-

(Continued on page Six)

The Weather

Mostly fair and warmer tonight and Wednesday.

MUSSOLINI TO GET MORE POWER

"All power to the proletariat!" was the slogan of the Russian revolutionists when they seized the government in 1917. "All power to Fascism!" is the slogan given to his followers by Premier Mussolini of Italy only last week.

The Russian proletariat was reduced to dependence. Italian Fascism is riding joyfully on the crest of the wave of success. Russia is in ruins. Italy has made such progress that its government is preparing to discuss debt settlement with the United States. There are no signs of a return of prosperity to the one-time realm of the Romanoffs. In the land over which King Victor Emmanuel nominally reigns prosperity is in prospect.

But the Fascist revolution has brought no more liberty to the Italians than the proletarian revolution gave to the Russians. Mussolini led his Fascist force into Rome in 1922. He has been dictator since then. He changed the election laws and acquired legal authority to work his will with the consent of a legislature which he was given the right to control. Now he is in a fair way to supersede the parliament. This week he forced through the Chamber bills societies, granting to the government full powers to reform the venal code and police laws, carrying out reforms of the army, giving ministers the right to discharge any civil servant whose political opinions are not in line with the government's policy, authorizing a vast program of public works to reclaim Southern Italy, empowering the government to issue decrees having the value of laws under specified conditions without approval of parliament, and new legislative measures to curb the activities of the press.

It may be questioned if Mussolini has gained any authority that he has not exercised as he chose in the past; but, if the senate concurs, his supremacy is validated by these acts. As the senate will do what it is ordered to do, Fascism now will wholly displace the liberal regime that functioned in Italy since 1870.

Mussolini has been a "benevolent despot." But the experience of the ages has been that unlimited power inevitably is abused. What is to be expected of the successors of the present dictator? How long will they be able to forefend a counter revolution for the restoration of popular liberty when Mussolini goes to join the Caesars of old?

It is hardly necessary any more for the groom to endow his wife with his worldly goods. She'll have the flivver most of the time anyway.

Turner-Fleetwood Wedding.

The marriage of Miss Bernice Turner, daughter of Mr. and Mrs. E. O. Turner of Gallatin, and J. Ross Fleetwood of Maryville, Nodaway County farm agent, took place at 9:30 o'clock this morning at the home of the bride. Dr. O. L. Wood, pastor of the First Baptist Church in Gallatin, read the service. Miss Matie O'Toole of Gallatin was bridesmaid and Roy P. McWilliams, also of Gallatin, was best man for Mr. Fleetwood. The ceremony was witnessed by the bride's parents, the attendants and Misses Verle and Crystal Fleetwood of Maryville, sisters of the bridegroom. Mr. and Mrs. Fleetwood left immediately after the ceremony for a wedding trip to Chicago. After a week's stay there they will visit Mr. Fleetwood's parents, Mr. and Mrs. C. W. Fleetwood of Pierce City, Mo. They will be at home at 321 East Seventh street, Maryville, after July 26.

The bride was graduated in 1923 from Stephens College, Columbia, and received a B. S. degree in home economics from the University of Missouri this month. Mr. Fleetwood holds a B. S. degree in agriculture from the University of Missouri, which he received in 1921. In June, 1924, he took an M. A. degree in soils from the College of Agriculture, University of Missouri. He taught in the High School at Pattonsburg where he met his bride, whose parents formerly lived there. During the summers of 1923 and 1924, Mr. Fleetwood was field assistant in the soils department of his alma mater. He came to Maryville as county farm agent September 15, 1924.

Birthday Party

Mrs. William Job, Jr., entertained a number of children at her home Friday afternoon in observance of the eighth birthday of her daughter, Helen Marjorie. The guests were entertained at games and refreshments of lemonade, angel food cake, ice cream cones and wafers were served. Assisting Mrs. Job were Mrs. Byron Masters and Miss Lucile Masters. Those entertained were Hazel and Lucile Schenkel, Lela and Virginia Hardisty, Vivian and Frank Stark, Maud, Iva and Marion Prather, Doris, Thelma and Laverne Worl, Orville and Clifford Bailey, Edith and Earl Ross Smith, Theo and Donald Stark, Cleo and Delmar Strauch, Leora Dawson, Edith and Gladys Baker, Mary and Aline Carmichael, Alice Pauline and Junior Nicholas, Martha Sue and Henry Sawyers Zimmerman, Martha Georgia and Edward Shelton, Opal Irene Masters, Josephine Ager, Ray Masters, Jr., Beverly Jean Masters, Mary Mae and Anna Belle Busby, Katherine, Raymond and Harold Lee Job, and the honor guest. When the Dam Gave Way

The dam that held the water supply for the town of Horton, Kas., collapsed after a series of heavy rains and every able-bodied citizen worked for hours to prevent the flooding of the town and destruction of crops. The lake that was released by the dam's collapse was two miles long, half a mile wide and 35 feet deep.

For every horse replaced, a John Deere Tractor releases four to six acres of land upon which profitable stock can be raised. Holt Supply Co.

Mr. and Mrs. Jim Dryer and Maggie Lu Lily were Sunday visitors at A. W. Hayworth.

There will be an ice cream social at Bethany Christian Church Wednesday night, July 1st.

Oil Fire

A bolt of lightning struck a 55,000-barrel tank of oil at El Dorado, Kas., and here's what happened. The smoke cloud shot 500 feet up in the air and kept the town in semi-darkness all day.

NEWS OF MISSOURI CITIES AND TOWNS.

Eminence, June 29.—The first carload of copper ore ever shipped from Shannan County has just been sent to a company at Chrome, N. J. The raw ore was shipped as it is believed to be of sufficient richness to prove profitable without reduction. Owners of the mine say there are vast quantities of the ore here.

California, June 29.—Lawrence Hert, editor, of this city has been appointed chief of properties for the State Game and Fish Department by Commissioner McCanse. He will have charge of State Parks, fish hatcheries and reclamation work. McCansy said it was necessary to divide up the work which has become too heavy for one executive.

Richmond, June 29.—The new Masonic Temple is nearing completion and plans are being made for an official opening late in July or early in August. Part of the structure will be occupied by commercial firms. There is a dining room, club rooms and a large dance floor.

De Soto, June 29.—The City Council has passed a resolution commending the State Supreme Court for its recent ruling in refusing to let technicalities interfere with justice.

St. Louis, June 29.—The five stores owned by the Judge & Dolph Drug Company in this city have been sold to the Walgreen Company of Chicago, for $363,000 cash.

Ava, June 29.—Business men of this city are making an effort to secure a milk condensing plant. Two companies are looking for locations in this section of the state and negotiations have been opened with them.

5 Brightest Planets All Above Horizon

Big Summer Show In Heavens Comes Next Month—Rare Spectacle On July 10.

Washington, June 30.—The big summer show in the heavens comes in July for the five brightest planets—Mercury, Venus, Mars, Jupiter and Saturn—will all be above the horizon at the same time for the greatest part of month. On the evening of July 19, says a bulletin from the American Association, Mercury, Venus and Mars will be so near together that they might almost be mistaken for a tripple star.

The three planets with the aid of your telescope, appear close together on July 10, but Mercury, the nearest of the three to the earth, will be about 105,000,000 miles from the earth when in conjunction with Venus. At the same time Venus will be at a distance of 146,000,000 miles from the earth and Mars at a distance of 239,000,000 miles. Mars is increasing its distance from the earth and drawing in toward the sun it will be increasingly difficult to find it in the twilight. Mercury and Venus are now approaching the earth.

On July 28 Mercury will reach its greatest eastern elongation when it will be more than twenty-seven degrees east of the sun. This, the American Nature Association points out, is within one degree of its greatest possible distance from the sun and great enough to enable you to pick it up easily in the twilight after sunset.

Mercury is coming into conjunction with Venus again on July 30, when it will be a little more than three degrees south of Venus so you should be able to locate Mercury easily at that time with the aid of Venus.

Anyone watching these three planets this month with the aid of a small telescope or field glasses might imagine they were playing tag or running a race in the northwest sky after sunset. All three move eastward during July for Vancer into Leo but all are moving at different speeds with respect to each other and the earth, Mars, the slow-moving one of the trio, is at the beginning of the month farther east and higher in the western sky than the other two but before the month is over has fallen far behind the other two planets which passed him on July 10.

Saturn, which has been above the horizon in the evening hours for some time, has been moving westward but only July 12 it becomes stationary, as viewed from our planet, and then begins to swing slowly backward toward Libra to the east.

Jupiter, which is now rising over in the southeast in Sagittarius, will be in opposition to the sun, or on the meridian due south, at midnight on July 10. It will then rise at sunset and be in view all night. On this date Mercury, Venus and Mars will set about an hour and a half after the sun.

TOM SIMS SAYS

A woman likes to think she is being bossed and to know she isn't.

Bathing suits are not so bad. You take a girl in one now, and you can't make a mistake.

Matrimony is all there is to keep people from being single.

Sometimes everything in the world seems an awful waste of time.

Some men insist upon losing their faith in women daily.

Is the Odor of a Pipe and Liquor the Same?

St. Louis, June 29, (United Press)—The odor of a strong pipe and the odor of alcohol are strangely different.

This the board of police commissioners announced when fining Patrolman Thomas A. Walsh $50 for having liquor on his breath while on duty.

When confronted with the charges Walsh made this defense:

"It must have been on my old corn cob pipe. You know gentlemen I smoke a very strong pipe."

But the fine was "plastered on" anyway.

Crane, June 29.—Six years ago Frank Miller bought an 80-acre farm for which he paid $900. This year he had sixteen acres in strawberries and the crop netted him $3,200, nearly four times the cost of the farm.

Crane, June 29.—W. F. Akin, a local canner, is experimenting with beets for canning this season. He has canned string beans successfully and is turning his attention to other vegetables. He has contracted for 600 acres of beans this year and expects to ship sixty carloads.

Automobile Dealers Chief Agency in Development of Tourist Program

The following is the twenty-fourth installment of the article on "Community Advertising" written for the Democrat-Forum by D. A. Caldwell, secretary of the Maryville Chamber of Commerce.

In the development of a tourist program, the automobile dealers can function in an interesting and pleasing way. If these dealers are advised as to how to assist in giving strangers the most courteous attention, and are supplied with literature and maps for free distribution, their services always prove helpful, because the seemingly "off-hand" assistance is appreciated more than if it was received from a bureau operating for that purpose only. It is important to see to it that information given out is accurate. This requires checking up by the Chamber of Commerce, which is usually the central agency in the operation of all community advertising campaigns.

Co-operative advertising is valuable. When various sections of a state combine their resources to develop either tourists, homeseekers, or industrial business, the combined selling power is greater than any one community might be able to secure. A recently formed state organization is taking newspaper space involving a total daily circulation of 7,819,545. The cost to each participating community ranges from $1,000 to $3,000.

In the face of a growing conviction that there is need for greater co-operation all along the line in all of our communities, individuals are more willing than ever before to work with others. This interest and action has a wholesome effect upon outsiders who live in a place that may not be so fortunate as to have developed this commendable trait. No community can accomplish its full objective unless it is backed by all possible agencies than can be set in motion.

Anything that can be sold, can be sold by mail. The first piece of direct mail advertising issued by any city should be booklet, which will answer all questions that a prospect is likely to ask.

(To be continued)

Perfume Tester Insures Her Nose for $50,000

New York, June 29. (United Press)—Mrs. Blanche Cavett of Oklahoma City was in New York today—with $50,000 insurance on her nose.

She is a tester of perfumes and is en route from her home in Oklahoma City to Europe, there to sample some of the choicest scents that Paris can produce.

So, in order to be safe against loss by the hazards of travel, she has insured her olfactor organ for $50,000 with Llpyd's at a premium of $400 for a three month's trip.

STEWART'S WASHINGTON LETTER

By Charles P. Stewart
NEA Service Writer.

By Charles P. Stewart,
NEA Service Writer

Washington—Washington's all excited over the Doheny and Sinclair oil decisions.

The capital feels a proprietary interest in these cases. Here they started in the senate. Here they'll wind up, in the supreme court.

In the meantime Washington's watching developments, as they break out, here and there.

It's no exaggeration to say they've got her guessing—the shape they've been taking in the last few weeks.

First, Federal Judge Paul J. McCormick of Los Angeles fooled Washington by deciding the Doheny case in the government's favor. Washington expected a decision the other day.

However, Doheny having lost, "Sinclair surely will," thought Washington for all the dope indicated that the government's evidence against the Sinclair lease was a good deal stronger than against the Doheny interests.

And then Federal Judge T. Blake Kennedy of Cheyenne decided in favor of Sinclair.

Judge McCormick found evidences of fraud in ex-Secretary of the Interior Fall's oil deal with Doheny. Judge Kennedy found no such evidence in Fall's deal with Sinclair.

There's nothing inconsistent in that. They were different transactions. There may have been fraud in one and not in the other.

Still, Washington was surprised.

Of the two, she had been a little less suspicious of the Doheny than of the Sinclair lease.

Fall and Doheny had been old pals. Doheny was the type of man to help out a friend who was in hard financial luck.

That, he said, was all there was to that $100,000 loan he made to Fall. It sounded a bit fishy, but Washington recognized there was a chance it might be true.

Sinclair, on the other hand, wasn't sized up as the kind of individual to let good money go for nothing.

Yet Judge McCormick refused to swallow the explanations of Fall and Doheny, while Judge Kennedy readily accepted those of Fall and Sinclair.

Nevertheless, both judges may—theoretically—be right as to the matter of fraud.

They can't both be right concerning the question of the late President Harding's power to transfer control of the government's oil lands from the navy to the interior department.

Judge McCormick says Harding exceeded his authority when he made this transfer, that the land remained the navy's in spite of him, and that Fall's lease to Doheny was void because he was disposing of what belonged to another department.

According to McCormick, it was void regardless of the question of any crooked deal between Fall and Doheny—though McCormick added, incidentally, that the deal was crooked, too.

Judge Kennedy holds that President Harding did act within his rights, so the Sinclair deal is okeh.

Kennedy agrees that it wouldn't have been okeh if Fall and Sinclair had framed it crookedly, but he finds no evidence that they did.

The nub of the dispute to be settled on appeal is whether President Harding did what the law entitled him to do, or went too far.

If he went too far the leases to Doheny and Sinclair are no good, and it's annecessary, so far as the civil suits are concerned, to discuss the fraud issue.

If not, the leases stand, unless fraud is proved.

The criminal cases still hang fire. Doheny probably will want to stave his off, hoping for a reversal of Judge McCormick's decision. Sinclair is apt to seek rapid action, before any higher court has time to spoil Judge Kennedy's vindication of him.

The civil and criminal actions are different, of course, but courts have considerable influence with one another, back and forth.

Some things are worse but you don't hear anybody nowadays threatening to let his whiskers grow until his choice is elected president.

A modernist, after watching a golf game, says "it is only a step from plus fours to all fours."

HOW TO DECIDE

The best way to decide where to buy a Used Car is to find out who has the best reputation for dealing in honest values. We welcome investigation on this point, any time.

New Santa Barbara to Be Built Upon Ruins of Old

(Continued from page 1)

aster was regarded as most fortunate, for had the quake occurred during the hours when the business blocks were occupied the loss of life would have been frightful.

The tremors continued at intervals for fifteen seconds, and then intermittently throughout the day.

Menace of flood added to the terror of the inhabitants, when the waters loosed by the breaking of Sheffield reservoir, control of the city's water supply, three miles to the east swept down on the town.

The San Marcos building, most massive of the city's commercial structures, a modern steel frame building four stories in height, is a mass of twisted ruins.

Second Fall for Mission.

The ruins of the Santa Barbara mission, queen of the California missions, testifies to the second visitation in a century, the structure not long ago having been reconstructed from the ruins of an earthquake in the early part of the nineteenth century.

There were many Catholics at early morning mass when the tremor occurred. The celebrant priest, although two images above the altar fell down near him, turned and urged his worshippers to pray, and it was only his calming of them that saved their lives, for a few moments later the two towers and a part of the front of the mission fell to the sidewalk.

The worshippers then walked out over the ruins.

Rescue parties were organized and, under the direction of peace officers and civilian leaders, with the aid of naval reserves, a cordon of armed men was placed around the ruined area and visitors permitted within only by credentials.

Food Plenty; No Fires.

The food situation was reported satisfactory. There were no fires resulting from the debris.

The Daily News and Morning Press set up extra 1-sheet editions by hand for distribution throughout the city.

Throughout the residences the inhabitants in many cases have moved some of their possessions out on the lawns and amid the debris of fallen chimneys and twisted houses smile at passersby.

"I have been through fifty earthquakes, but never one like this before," said Manager Richmond of the Arlington hotel. "It just took the hotel that we considered strong as a fortress and shook it back and forth as if it were a rag."

Limp Victim of Quake.

"It was precisely as if one were at sea in a storm. One would not believe it possible for a building to move with such force in so many directions and apparently so limply as did the Arlington.

"The hotel is a total loss."

Other stories of the motion of the earthquake were similar.

"The twisting of the earth was like a violent storm at sea," said Harry Afford, janitor at the Daily News. He was one of the comparatively few men in the downtown district when the earth began its shivering.

"The first shock shook the Daily News building like a little ship in a big storm. It knocked several of us down. There was nothing to do, it was just a question of getting up and holding on. Then came the second shock. This was the one that did the damage. It just rocked back and forth, back and forth, until the crunching and crashing sounds showed that the buildings were being torn down."

The imposing facade of the county bank appeared from the front as beautiful in its simplicity as ever, but down one side ran a jagged crack, like a lightning streak, through the concrete.

The San Marcos, a stately 4-story class A structure of the newest type, just completed, occupied principally by professional men, seemed from the southern and eastern ends of its "L" to be untouched. But its other elevations lay flat.

Prop Up Phone Building.

The telephone company's building has all four walls still standing by virtue of half a score of props made from telephone poles.

Inside the Arlington, a hostelry known to the travelers of two hemispheres, a picture of absolute destruction presents itself. The center dome crashed with the first tremors, carrying with it rooms in both diverging wings. The remainder of the building is ripped and torn.

One newspaper, the News, is homeless, its city desk and editorial staff functioning from the civic square and its issues coming from the press of a publication at Ventura, twenty-eight miles distant.

The morning paper, the Press, has its plant intact, but lacks the power to turn its cogwheels.

Hard at Work in Ruins.

Two distrinct sounds, not loud, but persistent, stand out wherever one walks in the stricken area: The tumbling of bricks and mortar as wreckers remove dangerous walls, and the hammers of builders rushing up temporary structures.

Throughout the residential districts particularly in the east side, the smaller frame houses in many cases were knocked askew by the temblor, some with fronts fallen out, chimneys and gables gone and yards flooded by the broken water mains.

Lawn room is almost a premium, for Santa Barbara residents tonight are shunning the confinement of their walls. The shock is too recent and fresh in their minds.

From fashionable hotels and apartments guests fled in the early morning, clad as they had jumped or had been thrown from their beds. Many never went back for their belongings.

For forty miles both ways up and down the coast telephone and telegraph wires were whipped back and forth on their poles by the shocks, and became so badly tangled that it will take many hours' work to put them into commission again.

Several stretches of pavement to the north have been badly torn and in some places the highway is almost impassable.

It was a glorious day for the law breakers of Santa Barbara. The rear walls of the jail crumbled at the first shock and the prisoners fled to freedom.

One of the narrowest escapes recorded in the aftermath of stories told among the ruins was that of Robert Malcolm, gardener at the Hotel Arlington.

The gardener was watering the flowers in front of the hotel when he felt the first shock. A moment later a fissure opened up in the walls of the hotel through which a strong stream of water from a broken main issued. The stream struck Malcolm in the chest with force sufficient to throw him clear of a 4-story wall, which crashed to the street.

Dr. Henry G. Hensey, an interne at St. Francis hospital, felt the first shock. He picked up Miss Ruth Allen, a nurse, and leaped from a window. Both received broken legs.

Nuns at the St. Francis hospital added to the deeds of heroism by carrying patients from the wards while the walls of the institution trembled.

Nineteen major earthquakes and eruptions have caused loss of life and property in various parts of the world in the last quarter of a century. Only one of these in the United States.

The larger disasters of this nature follow:

San Francisco, April 18, 1906; 452 lives lost; 350 million dollars in property loss; 265,000 persons made homeless.

Japan, near Tokio and Yokohama, September 1, 1923; 192,000 dead and missing; 102,000 injured; 580,000 homes destroyed.

Kingston, Jamaica, January 14, 1907; 1,100 lives lost; 25 million dollars in property damages.

Sicily and Calabria, December 28, 1908; 76,483 lives lost; 1,100,000 persons made homeless.

Central Italy, January 13, 1915; 29,978 lives lost; Avezzano destroyed.

China, December 16, 1920; 200,000 lives lost; ten cities destroyed.

Slipping "Fault" to Blame.

The earthquakes reported in California and Montana undoubtedly are the result of the slipping of a "fault" in the earth's crust in the western mountainous region. It is probable the movement has extended all along the Sierra Nevada and Cascadee ranges and part of the Rockies.

The "faults," which are a broken strata pushed up by convulsions of the earth, occur in many places in the mointain region. The San Francisco earthquake in 1906 was caused by the sharp slipping of an extensive fault, which made that temblor more severe than any in recent years.

In prehistoric days, when the earth was in its formative period, the mountains pushed up through the crust, volcanic action beneath the surface assisting in the process. In places this movement left great layers of rock strata balanced precariously. Occasionally, without any volcanic action such as causes severe earth disturbances in Italy, Chile and other countries where there are active craters, the earth slips slightly and a wide area is shaken. This action frequently occurs in mountainous regions, but also is noted from time to time in low areas and along seacoasts, far from mountains.

When "Dudes" Turn Cowgirls

Scene on a "dude ranch" near Sheridan, Wyo., where wealthy easterners pay for the privilege of living as cowboys and cowgirls all summer. Left to right are Miss Caroline Kennedy of Trenton, N. J.; Miss Elaine McAlpin of New York, a great-granddaughter of John D. Rockefeller, Miss Betty Kennedy of Trenton, and "Big Jones" Anderson, famous cowboy of the old school.

Fire-Blight Reducing Apple Crop in State

Can Be Controlled Somewhat By Removing All Diseased Trees From Premises.

Columbia, June 29.—Reports from many sections of the State indicate that fire-blight has considerably reduced the set of apples for Missouri's 1925 crop. Fire blight is one of the most serious diseases of the apple and pear and manifests itself by killing twigs, branches and even larger portions of the trees. Another form of injury which is giving much concern in many sections of Missouri is the partial or total killing of the fruit spurs. This type of flower and spur destruction, though not so apparent, has been very serious on some varieties of apples, particularly the Jonathan, says A. E. Murneek of the Missouri College of Agriculture. The Ben Davis, Gano and a number of other sorts seem to be comparatively resistant to it.

Aside from cutting and destroying old blight-infested parts there is no other feasible remedy to check this pest. It is entirely out of the question to remove all blight-infested spurs. They are too numerous in most instances.

Since fire blight is often carried from the pear to the apple, the spread of infection can be checked in a large measure by removing all diseased pear trees from one's premises. It should be understood, however, that this is not an absolute safeguard. Most likely a large amount of reinfection each spring starts from the apple itself as a source, particularly the spurs that were partly injured during the previous season. It is also possible that the common hawthorn and other wild plants carry over fire blight from season to season.

Spoke on "What School Men Owe the Church"

The College Y. M. C. A., which met this morning at the College sang a couple of numbers "Loves Old Sweet Song" and "Massa's in the Cold, Cold Ground," at the beginning of the meeting. The devotional was led by F. N. Geyer who read selected verses from Isaiah which were applied to the approaching Independence Day.

The feature of the program was a talk by F. L. Skaith. In speaking along the line "What School Men Owe the Church" he urged the Y. M. men to become connected with some church when they go out to teach, not for a selfish purpose with the idea of prestige gained but from the standpoint of real help and work that they would be able to do. He attributed the seeming lack of achievement in Sunday School work to untrained and unskilled workers, that they did not know how to prepare and present a lesson that would arouse the interest of the youthful listeners along Biblical lines.

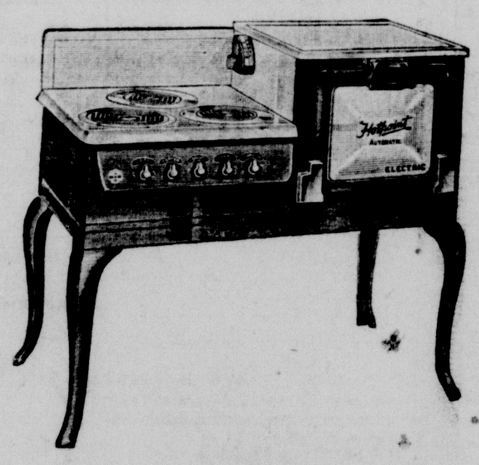
Mr. Skaith made the declaration that "As teachers we are to represent the highest type of American, Christian citizenship. There is always a place to work in the church. Get lined up with the church and do something for humanity."

As Mr. Skaith has been in school work for a number of years he was able to give a practical view to his talk this morning.

Poplar Bluffs, June 29.—The watermelon crop in Southeast Missouri will total about 1,000 carloads this year, according to reports received here. The recent rains have improved prospects materially.

Hired Thugs

Charles B. Davies, retired business man of Concordia, Kan., told police he had given a group of Kansas City gunmen $2,000 to kill his wife. The attept failedm, however, and the gunmen blackmailed him until he confessed. Later, however, he repudiated the confession.



Is the Modern Electric Range Expensive?

NO!

Your fire risk is reduced. There is no possible chance for fire to start from an Electric Range properly installed. No gasoline or oil to leak. No occasion to have a supply of gasoline or oil around, increasing your fire risk. This is only one of many reasons why an Electric Range is Economical.

We can tell you many other reasons.

Special terms for the next 60 days.

Evolution Law Is "Wicked" Says Briton

Archdeacon R. H. Charles Would Stand Out For a Verdict of "Not Guilty."

By KEITH JONES

(United Press Staff Correspondent).

London, June 29.—Declaring Tennessee's evolution law "a wicked law" the Venerable R. H. Charles, D. D., archdeacon of Westminster Abbey, told the United Press in an exclusive interview today that, were he on the jury to try John T. Scopes for teaching evolution he would "stand out to the bitter end for a verdict of 'not guilty.'

He would take this stand, he said, because he did not believe that a "wicked law should be enforced."

"I do not believe in punishing a man for the violation of a law harmful to truth and morality" he declared, adding that he regarded the law as a muzzling of the truth and enforcing the teaching of a falsehood.

Religion, he continued, was a process of development and not in opposition to the laws of science, but rather in harmony with them.

"Unlike the theory of evolution was taught and understood" he said, the Old Testament was largely unintelligible.

"Christianity as revealed through evolution, is vastly more interesting than ever it was before the theory of evolution was brought into being.

"Intelligent churchmen welcome the new discoveries of science and of explorers as all aiming at the true revelation of God. Their work helps us not to think God's thoughts after Him."

He opined that the American movement against teaching of evolution could be only temporary.

St. Louis, June 29.—A total of 136 new businesses have been induced through the Chamber of Commerce to locate in St. Louis in the last five years, according to figures announced by Paul V. Bunn, general secretary of the chamber. Of these, the Municipal Advertising Campaign, conducted through the chamber, was responsible for bringing fifty-one here. The 136 firms have a payroll of $5,732,000.

Hens, 21½c; turkeys and young toms, 23c; broilers, 31c; ducks 11½c; geese, 10c.

Chicago Closing Grain Review.

Chicago, June 30.—Trade in grain futures was more limited in today's session on the Chicago Board of Trade. Nevertheless, substantial gains were made over the previous close. It was a still weather market, sentiment being subjected to climatic changes.

Wheat was nervous and erratic. Short interests, created yesterday, started a rally when they started to cover.

Good buying followed and carried on to the finish. The crop news tomorrow is expected to be bullish.

Corn was not under much pressure.

Oats was strengthened by other grains.

No pressure was present in the provisions counter.

Leading longs and shorts bought sparingly, causing a moderate boost.

LOCAL MARKETS

CATTLE EASIER; LAMBS LOWER; HOGS HIGHER.

Kansas City Stock Yards, June 29.—The sharp advance in prices last week brought an increase in receipts today. Chicago had more cattle than Kansas City and there was a corresponding greater decline there than here. However, the choice to prime kinds hold steady and the decline prevailed in the grass fat and short fed classes. Following moderate declines late last week, hog prices ruled strong to 10 cents higher and within 5 to 10 cents of last week's extreme high point. Sheep were about steady to 25 cents lower.

Today's Receipts

Receipts today were 20,000 cattle, 5,000 hogs, and 8,000 sheep, compared with 15,000 cattle, 10,000 hogs, and 7,000 sheep a week ago, and 12,700 cattle, 17,350 hogs, and 9,200 sheep a year ago.

Beef Cattle

Good to choice grain fat and best grass fat and wintered western steers were fully steady. Plain to fair kinds were weak to 25 cents lower and the common classes were steady. The decline did not remove all of last week's advance in the medium classes and steady prices for the common and best kinds left the range in quotations the same as last week. 1,000 pound yearlings sold up to $12.00. Other choice yearlings, light and handy weight steers brought $11.00 to $11.75. Some choice strong and heavy weight steers sold at $10.50 to $11.25. Short fed classes, meal and hull fed Texans, and double summered wintered steers brought $8.50 to $10.75. Straight grass fat steers sold at $4.75 to $8.85. Most of the grass fat cows sold at $4.00 to $5.85, and grass fat heifers $4.75 to $8.25. Fed cows and heifers were scarce and fully steady. Veal calves were 25 to 50 cents lower, top $10.00.

Stockers and Feeders.

Trade in thin cattle developed uneven prices. The bulk of the good steers sold at fully steady prices, and other classes were lower. While inquiry is increasing, most of the demand is for the better kinds.

Hogs.

Following a moderate decline last Friday and Saturday the hog market strengthened again today, and the general market is only 5 cents under the extreme high point last week. The top price today was $13.50 and bulk of sales $13.25 to $13.45. The 165 to 300 pound classes sold within the bulk and 130 to 140 pound kinds at $12.75 to $13.10. Packing sows sold at $11.75 to $12.00 and stock hogs and pigs to $12.50 to $13.00.

Sheep and Lambs.

Lambs broke 25 cents and sheep are steady. Most of the offerings were native lambs that sold at $15.00 to $15.85. No western fat lambs arrived. Some feeding lambs sold at $11.00 to $13.00. Small bunches of ewes brought $4.00 to $6.00 and wethers $7.00 to $7.75.

Horses and Mules.

Trade in horses and mules is still limited by the meager supplies offered.

Chas. M. Pipkin,
Market Correspondent.

AFTER BABY WAS BORN

Mrs. Miles Was Miserable a Long Time—Owes Final Recovery to Lydia E. Pinkham's Vegetable Compound

Dover, Ohio.—"After my last baby was born I was up and around again, but I was sickly all the time and did not know how to get my work done. I had washed a heavy carpet and I think that was the cause of my troubles. I went to several doctors, but their medicines did not do me any good. I asked what the trouble was, for I could hardly walk and always had such pains in my left side and then in my right side. He told me I had inflammation that caused it. I had one of your text-books and was reading it, and I thought I would take Lydia E. Pinkham's Vegetable Compound. After four days of taking it I began to feel better, so I took three bottles without missing a dose. That helped me more than any other medicine I had yet taken and I always have it handy now. It surely did put me on my feet again."—Mrs. JAMES MILES, 419 Cherry Street, Dover, Ohio.

You must believe that a medicine that helps other women will help you. For sale by druggists everywhere.

It Pays to Advertise.

There is a good farmer lives near Maryville,
His name is not Tom, Dick, Harry or Bill,
There's a rural delivery goes by his farm,
But this of its self doesn't do any harm.

One day the carrier brought to his box,
A mail order catalogue big as two crocks,
This farmer put on his glasses and read,
Night after night, what the catalogue said.

He never once questioned the truth of the ad,
It might have been different with him if he had.
Said he to his good wife, "wife it appears,
There's a firm in Chicago called Sawbuck and Rears,

Who sell everything so awfully cheap,
Where you send little money and get quite a heap."
So he and his good wife made out a list,
As long as your foot and as wide as your fist.

Then he added it up on his fingers and thumb,
All together it made quite a sizable sum.
They sent off the money they'd saved up for years,
To this firm in Chicago called Sawbuck and Rears.

They sent for a dresser, commode and a bed,
"An elegant suite," (so the catalogue said),
A table and chairs and some big rubber boots,
For him and the boys, and some corduroy suits.

In three or four weeks the Chicago stuff come,
Meanwhile this farmer had inquired some,
He found he could have them laid down at his gate,
By his home man, for less, besides save the freight.

Now some day this farmer will lay down and die,
Do you think Rears and Sawbucks will be there and cry?
Oh no! right there in Chicago they'll stay,
And fill the mail orders for some other jay.

Or, maybe as they are so very well off,
They'll go to the links that day and play golf.
The home merchant will likely carry the dead,
And shed all the tears (if any are shed).

Moral

To this farmer I'll say, "Buy your shovels and axes,
Of the home hardware man who helps pay the taxes.
Buy your shirts your sox and your corduroy pants,
Where you don't have to send off your cash in advance.

To the merchant I'll say "If you are wise guys,
You'll keep a clean stock and then ADVERTISE.
Keep your name and business forever before them,
With a two column ad in the DEMOCRAT FORUM.

—"Jerry."

—to build up Weight!

ANY WOMAN, any man, can now have a well-developed face and form. The whole, simple secret of a well-developed form is in the number of blood-cells in your body. You can now forget all the theoretical talk about diet, exercise, fad treatments, food-fats and fat-foods. Nothing is of any use, after all, except blood-cells!

Thin, run-down men and women, with bony necks, sunken cheeks, bony shoulders—all these are suffering from one thing—too few blood-cells. Science has proved that S.S.S. helps to make the rich red-blood-cells, which you need. Your blood is starving for these new blood-cells! Give your blood the blood-cells it needs—take S.S.S. the great scientific blood-cell maker. S.S.S. has done marvels, too, in making beautiful complexions, clearing the skin, making lips rosy red, the cheeks full and plump—because it rids the blood of impurities which cause pimples, blackheads, acne, blotches, eczema, tetter, rash and rheumatism, too. As the medicinal ingredients of S.S.S. are purely vegetable, it may be taken with perfect safety. This is why S.S.S., since 1826, has meant to thousands of underweight men and women a plus in their strength. Start taking S.S.S. today and your great problem, that of your personal appearance, can be solved.

S. S. S. is sold at all good drug stores in two sizes. The larger size is more economical.

S.S.S. The World's Best Blood Medicine

Child-birth

Here is a wonderful message to all expectant mothers!

When the Little One arrives, you can have that moment more free from suffering than you have perhaps imagined. An eminent physician, expert in this science, has shown the way. It was he who first produced the great remedy, "Mother's Friend." Mrs. C. J. Hartman, Scranton, Pa., says:

"With my first two children I had a doctor and a nurse and then they had to use instruments, but with my last two children I used 'Mother's Friend' and had only a nurse; we had no time to get a doctor because I wasn't very sick—only about ten or fifteen minutes." Use "Mother's Friend" as our mothers and grandmothers did. Don't wait, start today, and meanwhile write to Bradfield Regulator Co., BA 46, Atlanta, Ga., for a free illustrated book containing information every expectant mother should have. "Mother's Friend" is sold by all drug stores—everywhere.

(June 27, 29, 30; July 1, 2, 3, 6.)

RESOLUTION NO. A-24.

A Resolution for Grading, Paving, Curbing and otherwise improving Lincoln Street, from the West Line of Main Street West to the Center Line of Buchanan Street, in the City of Maryville, Missouri.

Be it Resolved by the Council of the City of Maryville, Missouri, as follows, to-wit:

SECTION 1. That it is hereby declared necessary to bring to the established grade, and pave, curb and otherwise improve to a total width of 23 feet, 11 inches, from face of curb to face of curb, the roadway of Lincoln Street, in the City of Maryville, Missouri, from the west line of Main Street west to the center line of Buchanan Street.

SECTION 2. The said grading shall consist of bringing the roadway of said Street to the established grade, as provided by Ordinance No. 1032 of the City of Maryville, Missouri, by cuts and fills and by excavation sufficient to provide for the aforesaid paving as shown by profiles of said street, now on file in the office of the City Clerk.

Said paving shall consist of 7 inch reinforced concrete paving laid on a well rolled sub-grade.

The curb and gutter shall consist of an integral curb, constructed of concrete. The curb to be 5 inches wide at top and 6 inches at bottom, and an average depth of 13 inches.

All the aforesaid improvements shall be constructed in strict accordance with the plans and profiles therefor now on file in the office of the City Clerk.

SECTION 3. The cost of said work, to-wit: grading, paving, curbing and otherwise improving, including the cost of bringing said street to the established grade, shall be levied as a special assessment upon all lots and pieces of ground upon either side of said street abutting thereon, as provided by law, and special tax bills bearing interest at the rate of 8 percent per annum after thirty days from the date of issue evidencing such assessment shall be issued to the contractor for payment of said work.

SECTION 4. The Council of the City of Maryville, Missouri, further finds that the distance covered by this pavement is less than twelve hundred feet, and that it connects with pavements at each end. All curb and gutter now constructed on said streets on established grades shall be deducted from this work.

Any person desiring to do so may appear before the City Council of Maryville, on the 10th day of July, 1925, at 7:30 p. m., at City Hall and be heard upon the question of the necessity of the work sought to be done under this resolution.

Be it further resolved that a copy of this resolution be published seven consecutive insertions in the Democrat-Forum and Maryville Tribune, a daily newspaper published in said city.

Passed and approved this 20th day of June, 1925.

W. O. GARRETT, Mayor.

(SEAL)

Attest: Merle Cooper Smith, City Clerk.

Card of Thanks.

Sports

MERCHANTS BOOK 2 GAMES

WILL PLAY HERE JULY FOURTH AND ON SUNDAY.

DIXON IS TO PITCH

Whitesville and Shenandoah Are Scheduled to Play at Old Fairgrounds 4th and 5th

Whitesville and Shenandoah—July 4 and 5.

These two baseball teams have been booked by the Maryville Merchants' Baseball Club for this week-end. Whitesville, just over the line in Andrew County will be the Fourth of July game here against the Maryville Merchants' team and Shenandoah will play a return game here the next day, Sunday, July 5.

Both these games will be played at the Maryville Ball Park at the old fair grounds. It is expected that Eugene Dixon will pitch the first game for Maryville against Whitesville. He will have a hard task as Whitesville has taken the Savannah team to count and the Milwaukee Giants just barely nosed out a victory over Savannah recently.

Heine Buhler will attempt to get revenge Sunday for the defeat of last Sunday and will hurl for Maryville against Shenandoah. It will be a different line-up Saturday and Sunday than the Merchants presented against Shenandoah.

Palmer Is Now With the Milwaukee Giants

Palmer, a Maryville boy, is now playing with the Milwaukee Colored Giants. He won his first start for the colored team against New Hampton last Friday, winning 6 to 5.

The Giants lost to Lineville, Ia., 8 to 3 and on the next day shut out Melcher, Ia., 3 to 0. Sunday the Giants lost to Melcher in a 12-inning game. Palmer was playing right field for the colored team .The Giants play Newton and at Dubuque before going to Milwaukee this week-end.

Fillmore Is Badly Damaged by Hail

Storm Saturday Night Is Accompanied By Heavy Wind And Rain—Big Loss To Various Crops.

A severe hail storm, accompanied by a heavy wind and rain, struck Fillmore and vicinity shortly after 10:30 o'clock Saturday night doing damage to buildings and crops estimated at thousands of dollars and killing small animals on farms.

Fillmore is just across the line in the northern part of Andrew County.

The storm area extended from Fillmore to about six miles north. In this area the crops were virtually wiped out in many places, with only the stalks of corn remaining in many of the corn fields, and with other crops similarly destroyed. The damage to the crops was perhaps the greatest loss.

Hail Stones Were Large.

The hail, of which some of the stones were as large as hen eggs, did considerable damage to buildings at Fillmore, breaking many windows and piling up in the streets about a foot deep.

The glass windows in many of the stores were broken out. The A. Cole furniture store, the postoffice, the Hanner restaurant, the James Barber shop and the I. O. O. F. Hall suffered the greatest loss. Nineteen windows out of the twenty-four on the north side of the Christian Church were broken out.

On some of the farms pigs as large as fifty pounds were reported as being killed by the wind-driven hail stones. Rabbits and birds also were reported as killed in a similar manner.

Estimated Loss at $5,000.

W. G. Lambright, a farmer, living about five miles north of Fillmore, estimated the loss to his crops at $5,000, while many others are reported to have lost all their crops.

Some of the old-timers recalled a severe hailstorm at Fillmore sixteen years ago, but the storm Saturday night was said to have done more damage than the storm in 1909.

Bartrams to Minnesota Lakes.

Mr. and Mrs. Irvin Bartram and children, Gladys, Elizabeth and Irvin, Jr., will leave tomorrow morning to motor to the Minnesota lakes on a three weeks' outing.

QUIET FOURTH IN MARYVILLE

NO REGULAR PROGRAM FOR DAY IS ARRANGED.

MOST STORES CLOSE

Baseball Game Is Scheduled For Saturday Afatrnoon With Whitesville—No Delivery of Mail.

Fourth of July will be quietly observed in Maryville Saturday.

There will be no rural or city delivery of mail on Saturday, it was announced at the postoffice today. The lobby will be open from 6 o'clock in the morning until noon, and then from 3:30 to 8 o'clock. As much mail as possible will be distributed to the boxes.

All of the banks and most of the stores will remain closed throughout the day. The meat markets and grocery stores, however, will be open until 10 o'clock Saturday morning and some will be open for a few hours Sunday morning.

The Maryville Merchants baseball team will play the Whitesville team at the old fairgrounds at 3 o'clock Saturday afternoon. A game is also scheduled with Shenandoah here Sunday afternoon.

No regular Fourth of July program has been arranged here. A number of persons are expecting to attend the celebration at Burlington Junction.

The Maryville country club will be a popular place Saturday, according to a number of golf enthusiasts.

A number from Maryville will also spend the holiday at Omaha, St. Joseph, Kansas City and nearby places.

The Democrat-Forum and Tribune will not issue a paper on Saturday.

Unionville, June 29.—A contract has been let to a Memphis firm for erecting the new grade school here at a cost of $21,250.

St. Joseph Bond Election Aug. 4

St. Joseph, June 30.—A special election August 4 to vote on a bond issue of $1,350,000 for the building of additional sewers in this city is provided for in an ordinance introduced in the council Monday night.

The sewer bond election has the approval of Mayor H. E. Grossey and members of the board of public works, who were present when the matter was discussed in caucus.

The urgent need of additional sewers in St. Joseph was presented by James E. Cox, of the R. L. McDonald Manufacturing company, William Albrecht of the Western Tablet company and Dr. C. R. Woodson.

The time is opportune for an election, these men claimed, as the results of recent floods in certain sections because of inadequate sewer systems are still fresh in the minds of the people.

Henry Ford Fails to Bid for 200 U. S. Ships

Washington, June 30.—Henry Ford failed to submit a bid today for the two hundred old ships offered for sale by the United States Emergency Fleet Corporation. The largest bid was from the Boston Iron and Metal Co.

Things That Count:
The heaviest constructed steel furnace on the American Market.
Has more prime heating surface than any other furnace.
Patented Hot Blast Fire Pot is found in no other furnace.
Successfully burns cheaper grades of soft coal.
Greater heating surface assures more heat and less loss of heat out the chimney
These and many other WEIR features gladly explained to you in detail.

..and the *furnace*

The architect knows that saving $50.00 to $200.00 in the first cost of your heating system probably means that it will cost that much each year in extra fuel and inconvenience, to say nothing of doctor bills, cleaning and decorating expenses.

The WEIR Furnace will meet every requirement. It will satisfy the most exacting home builder. And, it will continue to satisfy for years to come. Many WEIR Furnaces have been in continuous operation for from 30 to 40 years.

Consider the WEIR before you finally decide. Let us explain it to you.

AUSPICES OF M. M. B. C.

Wallick & Schwable Shows, That Played at State Fair, Will Be Attraction Here Next Week.

Wallick and Schwable Shows, that played at the Missouri State Fair at Sedalia last year, was signed up this morning to operate a carnival for six days here next week, starting Monday, July 6. The carnival will be under the auspices of the Maryville Merchants' Baseball Club, according to Paul Kuchs, president of the organization.

The contract was signed this morning when G. N. Coffey, agent for the Wallick & Schwable Shows, was in Maryville. He has guaranteed as large a carnival as was conducted at the state fair, which will include no less than twenty-five concessions, six different shows and from three to a half dozen of the newest rides that are being featured this year by carnival companies.

Mr. Kuchs said this afternoon that no definite arrangements have been made as to the location of the carnival that will show here next week, but said that the Merchants' Club is figuring on the Club Ball Park, at the old fair grounds, immediately east of the Burlington tracks.

Planning Large Airplane Plant

Kansas City, June 30.—A large airplane manufacturing plant will be established in Kansas City by Anthony H. G. Fokker, famous European aeronautical expert, H. E. Drake, chairman of the Aerial affairs committee of the Kansas City Chamber of Commerce announced yesterday. Financial aid in the project will be given by Kansas City men, it was said.

Fokker spent two days here last week, negotiating with local business men.

The plant, it was said, will be one of the largest in the world.

Marriage License

A marriage license was issued today to Claude W. Marlow and H. Lucile Bonham, both of King City, Mo.

Some people regard jewelry as a luxury but it is getting so that, without their trinkets, many women would be scantily clad.

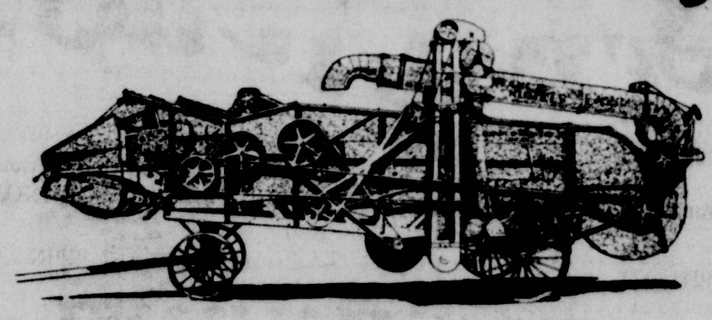
Steel Means Durability



Rust-Proof and Weather-proof

The Advance-Rumely Ideal Steel Separator offers every Thresherman two big vital features:

1—The same famous "save-all-the-grain" principles that have made the Rumely-Ideal *wood* separator famous on thousands of farms and among threshermen everywhere.

2—The bridge-like steel construction which gives greater strength, longer life, more reliable "day-in-and-day-out" service and makes possible more efficient operating.

Not only is this efficient steel separator stronger, but it is actually proof against all weather conditions. Practically eliminates the danger of damage from fire.

The Advance-Rumely Ideal Steel Separator is built in five sizes — a size for every need of the individual as well as the custom thresherman — (24x38, 28x44, 30x48, 32x52 and 36x60).

For a threshing team that will see you through the toughest season with the least trouble and expense and with the greatest profit, the *Light-Weight* OilPull Tractor and the Advance-Rumely Ideal Steel Separator stand head and shoulders above the crowd. Ask any owner anywhere. Then see us.
